

# Halloween Shadow Matching File Folder Activity

## Instructions:

- Cut out the Halloween shadow shapes and glue them to one side of your file folder.
- Cut out and laminate the coloured Halloween shapes and store in an envelope or ziploc bag.
- Ask your child to match the pictures to the shadows.

## Alternatively:

- Slip the “shadow” sheet into a sturdy page protector or the plastic leaf of a display file.
- Attach one half of a velcro dot in the centre of each shadow.
- Cut out and laminate the Halloween shapes as before. Attach the other half of the velcro dot in the centre of the shape.
- Now your child can “connect” the laminated piece into the correct position.
